To Whom It May Concern:-

## Wardkiss and MiTek Industries PROUDLY associated.

Wardkiss  
Registration Number:- 1999/007/635/07  
Physical Street Address: 329 Sydney Road, Congela, Durban, 4001

We hereby proudly certify that **Wardkiss** has been a licensed **MiTek Truss fabricator since January 2018**. MiTek Industries (Pty) Ltd. is a division of Mr. Warren Buffet's Berkshire Hathaway Group of companies and holds the internationally accredited **DEKRA ISO 9001:2015 Certification**.

MiTek Engineering is controlled by registered **Professional Engineers** (10 on staff) and all design processes and software comply with the relevant SANS codes specifically SANS 10162 "**The Structural use of Steel**" (Part 1 and Part 2) for the design of **Ultra-Span Light Gauge Steel** as well as SANS 10163 "**The Code of Practice for the Design of Timber Structures**", SANS 10160 "**The Code of Practice for General Procedures and Loadings to be adopted for the Design of Buildings**" and, SANS 10243 "**The Manufacture and Erection of Timber Trusses**" for timber trusses. The full suite of MiTek programs used by Wardkiss is the latest in truss quote and design technology.

All of Wardkiss's key design and estimating staff have attended **software training courses** at MiTek Industries. These courses include engineering, trigonometry, bracing and quality standards as well as the design techniques required in the roofing industry. **Wardkiss 's staff** are well trained, helpful, enthusiastic and, more than competent in their respective fields.

MiTek's customer support staff visit Wardkiss regularly and ensure that systems and details are the **latest that are available in the industry**. We also check the design and manufacturing quality confirming that they meet **standards in the industry**.

Trusses are manufactured using the **latest equipment** comprising of **MiTek Roller presses** and **calibrated web- saws**. Equipment is calibrated on a regular basis. Wardkiss adhere to strict SANS certified quality requirements in both design (through the use of structural design computer software) and manufacturing excellence. All the timber used to manufacture trusses is **SABS or SATAS approved** and graded accordingly.

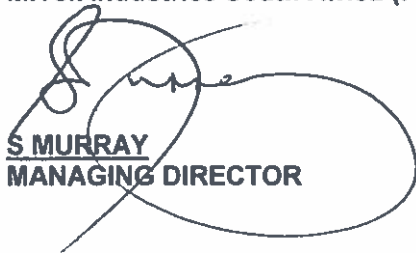

On delivery of the trusses Wardkiss can supply a Fabrication Certificate as a quality manufacturing guarantee. To give customers **complete and total peace of mind** Wardkiss can supply details of their Product Liability insurance on the Fabrication Certificate.

A Berkshire Hathaway Company

The owner of Wardkiss, Mr. Alan Palmer has personally been involved in this industry, previously as the Managing Director of D and A Pinetown for over 25 years and has an enormous amount of experience, earning a huge amount of respect and an outstanding reputation for a top quality manufacturer man with the author.

We have **no reservation in endorsing** Alan and his team's ability to deliver a quality structural solution, of whatever complexity in either Ultra-Span Light Gauge Steel or Prefabricated nail plated timber.

Yours Faithfully  
**MiTek Industries South Africa (Pty) Ltd**
